To understand the Quantum Atmospheric karma Scales it is necessary to understand environmental science and Quantum Biology, together with Quantum Astrological Biology and read book one and Nutrition, functional Foods and Epigenetics; also have a positive intellectual attitude towards your good health (as specified within book one) combined with appropriate nutrition (as would be advised by Nutritionist) and adequate exercise.

The path represents the spiritual journey on the Tao of evolution that is none materialistic, perhaps applicable for all that remain of the path of neutrality evolving with universal-love in a harmless way; The balance achieved with scales and analytical parallel learning techniques helps to maintain celebre-fluid-homeostasis and balance moderate thought, making use of the pseudocertainty together with balanced nutrition and exercise towards your good health.

Possible levels of the Tao

Thers is your Personal Tao - use self-appraisal
The EGO is emotional, intellectual and spiritual immaturity; use self-appraisal to appraise YOUR emotional, intellectual and spiritual maturity - Buddhism teaches humbleness.
Thers is your relationship(s) Tao - use self-appraisal
Thers is your Spirit level Tao - use self-appraisal
Thers is your Soul level Tao - use self-appraisal
Thers is the Tao of divinity that may be encoded within the Human NATRAL Genome/Genetics;
To preserve the natural genetic integrity of gene pools and quantum epigenetic drift together with species diversification so to avoid stem-cell-mutation; **unrelated** Yin/Yang procreation would help maintain natural gene-pools and quality quantum epigenetic drift for future preservation.

The perfect relationship and the patterns of science evolution

This is a bit of a hypothesis, yet to be proven, both polarities of male and female brain is different, the male (yang) and female (Yin) neurological networks are different in density and structural difference.

The difference creates differentiated quantum energy via quantum entanglement (See bitcoin encryption-keys - in book).

A magnet has quantum equilibrium, co-evolution is equilibrium that is an innate noncompetitive patten written in science evolution (i.e. relationships evolve better with pattens of none- competitiveness, as with molecular and quantum evolution, whereby two souls grow and stay together via coevolving mutualism, in accordance with the pattens of science evolution).

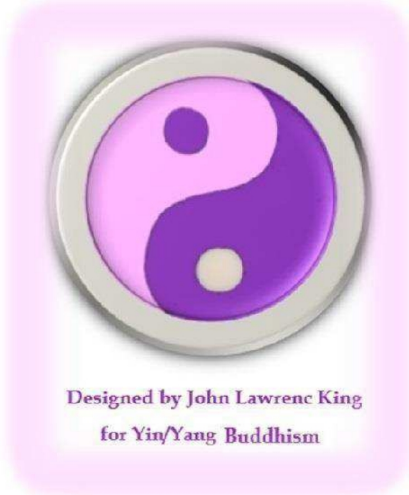

Also see: - Astrological Evolution - Towards the evolution of astrology, upgrading astrology into Astrological Quantum Biology.

The perfect relationship and the patterns of science evolution

'Equilibrium of yin-female/yang-male will diminish the divorce rate via Sensitive debate mutualism'

Perfection in a relationship is important as the Tao of the relationship is dependent upon the equilibrium of the polarities of Yin(female) and Yang(male) and sensitive communication.
The rationale is that intuitive balance is associated to Quantum Atmospheric Tao, that is enhanced intuition, the more natural the personalities are the intuitive enhancement that is associated to the third level of understanding of the Tao the true purpose of life *(will be explained with the divine Tao, still waiting for the evolved mathematics).*

There are two natural ways to evolve on your Tao: via debate or via coevolving mutualism, if you are a Taoist Monk evolution is via debate, though mutualism has been chosen by many: that is via co-evolving mutualism with YinYang balance so to perceive the divine Tao within a natural YinYang relationship. Perhaps some may ask why science is important in relationships and the answer is that the pattens of evolution are

written in nature via universal inflation, quantum evolution and molecular evolution. As with the hypothesis: the origins of the universe (see www.YinYangBuddhism.com); the first quantum polarity initiated the pattens of science evolution, the parallel perception with Yin-Yang coevolving mutualism is that polarity of Yin-Yang is has a similar patten, at quantum level the atmospheric Tao polarity of Yin-Yang is balanced with sensitive communication is the evolution or the Tao of the relationship of which, is correlated with Quantum Astrological Biology by John Lawrence King .

Towards the evolution of astrology, upgrading astrology, into:-

Astrological Quantum Biology

Towards the evolution of astrology, upgrading astrology into astrological quantum biology Astrology has patterns of social behaviour that have been shown within the astrological signs since the Myers culture who were the first astronomers, they calculated the distance of planets/constellations from planet Earth to the planetary constellations.

The patterns of social behaviour associated to each astrological sign corresponds to the astronomical constellation clearly shown within Greek astrology; also, Chinese astrology seems to be more precise because it has more emphasis on the moon cycles. However, Greek astrology is quite wrong in respects to the fact that the

planets do not move around the planet Earth in actual fact the planets revolve around the sun within our solar system in accordance with astronomy.

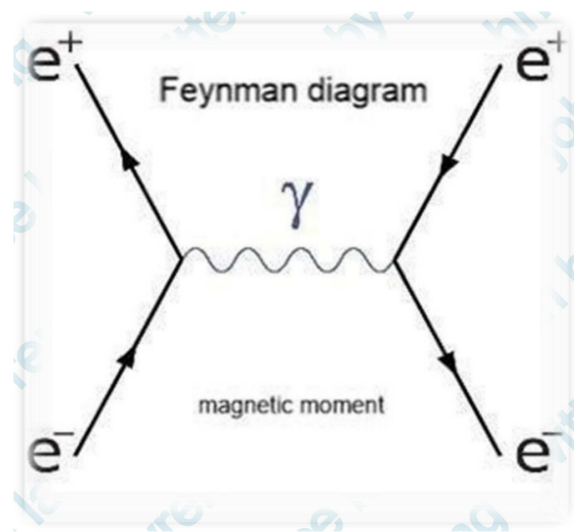

Planetary interactions, meiosis, mitosis and cerebral fluid Planetary interactions have an effect on meiosis and mitosis via solar interactions yet to be proven via quantum biology. Physiologically, [quantum tunnelling and entanglement are generally thought as the mechanisms of planetary interactions](#), though other quantum interactions also transpire yet to be proven see question: -

Question for the [Quantum-Biologists and Enzymologists](#): -

“How does a cerebral fluid enzyme hold audio and visual memory (e.g., a Chinese character); before, during and after transmission of neurotransmitter from one neuron to another neuron. A laboratory experiment is necessary; whereby simulated cerebral- fluid is within a petri-dish, containing neurotransmitters, neurons and enzymes with a control mechanism transmitting the neurotransmitter along the polarised neuron to the enzyme, and some

mechanism to quantify and qualitatively compute how an enzyme holds memory, other than quantum entanglement and tunnelling; There is some other mechanistic unidentified phenomenon not yet known. If you have a reasonable hypothesis as to how, please do not hesitate to contact me at johnlawrenceking@bio-functional-foods.com for dialogue”.

The solar-space-weather is the measurement of electrons, photons and protons, the electrons coil after/during the magnetic moment together with the different quantum-flavours accounting for the colours red, blue and green quantum flickers/luminosity during a [thermal dependent quantum kinetics](#) that are most probably dependent in electron polarities and vis versa with quantum entanglement/tunnelling and some other **phenomenon** not yet know *level (see: - A laboratory experiment is necessary)*; thereby making photons via the magnetic moment, the hypothesis is that a photon travels in a spiralling system similar to a spiralling-galaxy *(that has an out-put of dark matter). see figure 1a: - Figure 1a - Feynman diagram, (there are an infinite number of Feynman diagrams that are graphical representations of equations).*

The Feynman diagram shows the Electron positron scattering (called the magnetic moment) where two electrons collide to produce a photon γ , given by diagram

that represent two integrals that are electrons, and the intermediate photon γ is a symbol that carries the quantum numbers of the exchange *(but not mass, as a photon has 0 charge and 0 mass and 1 spin)*. The electron scattering exchange is qualitatively even, each other the results between are like and unlike charges that are different, as the two electrons colloid a photon is emitted that last approximately two milliseconds, the quantum electromagnetic waves are indicated by γ that discharges to the other electron and/or quark/antiquark *(depending on diagram) fields, diagram by (P. Richard approximately 1918-1988 - Feynman), for detail see:-*

https://www.google.com/search?q=feynman+diagram&rlz=1C1MQFJ_en-GBGB1093GB1094&oq=fayman+d&as_lcrp=EgZiaHJbWUaDw8BEAAYChIDARixAxiABDIGCAAQRRe5Mg8IARAAGAoYgwFYsQMwAQvCQgCEAAAYChIABDJICAMQABgKGIAEMgkiBBAAAGAoYgAQvCQgFEAAYChIABDJICAYQABgKGIAEMgkiBBxAAAGAoYgAQvCQgIEAAYChIABDJICAKQABgKGIAEQgKMTkwNDFqMGoxNagCALACAA&sourceid=chrome&ie=UTF-8#hid=Y24DkNmMU64M&vssid=j

During day and night the sun and moon has quantum interactions. The sun interacts via solar flares that are hydrogen explosions from the sun, at night the moon reflects the suns light that quantum interactions; though as Earth move through (*via rotation*) the planetary constellations, planetary-quantum-interactions occur. The planetary-quantum-interactions combine with global consciousness and the sun and moon interactions affecting the physiology at quantum level; significantly for Astrology, Astronomy and Quantum:-

Astrology – over thousands of years astrology has shown social behavioural patterns allied with each planetary constellation.

Astronomy - over thousands of years (since the Myer civilization) Astronomers have been calculating and observing the planetary constellations and quantum

interactions within the perceivable cosmological solar system; referred to as cosmology, **astrophysics/astrobiology** (*space tech*).

Quantum-Biology – Quantum-Biology is quite reascent it is the combination of the discipline of Physics, Biochemistry and physiology to understand the enzymology (also epigenetics) and physiology of humans in a comprehensive way. Now, the combination of Quantum-Biology, Astronomy and Astrology will be a specialism of the three specialisms above with an objective to prove that meiotic, mitotic cell division and all physiology is affected via planetary-quantum interactions; combine with global-consciousness and/or the sun or moon interactions affecting the physiology including cerebral-fluid at quantum *level* (*see: - A laboratory experiment is necessary*). The above combination would be an academic discipline one third of the study should involve laboratory research, a third theory and a third essays, dissertations, theses, depending on the level of study (Concepts thought of during 2002 by John Lawrence King).

Planetary-quantum-interactions the hypothesis is that planetary quantum interactions correspond with the constellations together with planetary interactions upon the physiology via quantum entanglement and tunnelling with some other unknown quantum phenomenon yet to be discovered (see question for the Quantum-Biologists and Enzymologists).

Meiosis occurs before conception during sperm and egg, utilising meiotic cell division; mitotic cell division occurs there with the nine months pregnancy and thereafter. Planetary quantum interactions influence both male and female via both meiosis and mitosis throughout life from preconception into old age.

Thus, the planetary quantum interactions interact throughout life and is shown in social patterns of astrology; not astronomy, even though quantum biology shall eventually prove that the patterns in astrology are average reality for most, as to the question with reference to cerebral fluid quantum enzymic reactions, result in memory retention and transmission from one neuron to the recipient neuron; Therefore, the planetary quantum interactions and consequential

quantum effects on the cerebral-fluid enzyme and resultant social patterns shall be proven and the quantum interactions, once the question specified for the quantum biologists and enzymologists has been answered. Assuming planetary quantum interactions are proven to have impact on the physiology, both enzymology and Epigenetics are affected with resultant patterns; within enzymology that would be cerebral fluid and immunological interactions and with epigenetics, the hypothesis is in a transgenerational way. Thereby, affecting both social patterns and transgenerational epigenetics, as quantum tunnelling interactions are known to interact, also with the DNA structure via quantum affiliate resulting in dynamic chemical-affiliations during epigenetic interactions (KING.J. K - 08.01.2023)

Romantic suggestions linked with astrological quantum Biology (meiosis/mitosis) with an objective of creating an dating app.

biology Romantic suggestions linked with astrological quantum-biology would be very compatible and

coevolving mutual relationships would be long-lasting as the beneficial information provided via the new astrologers of astrological quantum-biology would be very precise, opposed to anecdotal information currently available from a system that sill teaches the earth is the centra of the solar system of which is not true, the sun is the centra of our solar system (KING.J. Within the air we breathe there is entanglement, tunnelling and some additional quantum phenomena interacting with the physiology.

The 2 up & 1 down quarks and 1 up & 2 down quarks would seem to be the quantum mechanics of entanglement interacting between molecular structures of electron polarity change that determine the rotation of enzymic structures in quantum biology; Though in atmospheric physics it would seem the carrier of quantum entanglement is atmospheric h20 (quarks are within the protons of water) and the triangular quark structure within the air we breathe that is the carrier of simultaneous quantum entanglement and tunnelling with some additional quantum phenomena interacting with the physiology.

Where souls evolve and the love is forever lasting

Through the dimensions of time

Of the Tao, the quark entanglement we breathe akin to life’s building blocks though forever lasting love is eternal

On the Tao of space and time

We will embrace for all eternity
Heavenly and delightful entangled on the etheric Tao in perfect synchronised harmony the love always enters in life and eternal life of infinity

Planetary pattens of constellations and Tao are intertwined and the pattens manifest with the Tao
you and I are manifestations of Tao pattens through the dimensions of time

The companies would be distributed in different countries, if you are interested and from a industrial food processing manufacturing company or harmless organisations; interested in the manufacture of Bio-Functional-Food/Gels please send your inquiries to johnlawrenceking@bio-functional-foods.com

Please note, this is NOT a franchise, it is a philanthropical (not for profit) business opportunity whereby the companies would be economically self-reliant as the income generated from sales to supermarkets/retail outlets would have resultant independent autonomy, and help feed the poor; if any would like to help with a cash-flow-forecast towards please send to: johnlawrenceking@biofunctionalgels.charity also eventually a instruction book on how to manufacture Bio Function Food/Gels™

Synopsis

Discover the fascinating world of nutrition and functional foods with this new textbook from author John Lawrence King. Ideal for beginner to intermediate level students in health education, this paperback publication from amazon covers the latest research and insights into the role of epigenetics in our diet.

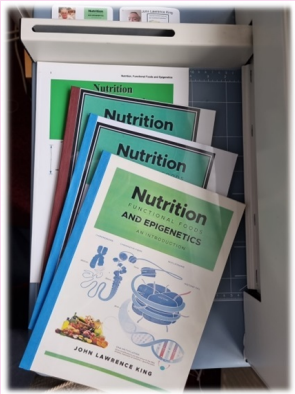

Explore the impact of different food groups on our genetic expression, and learn how functional foods can be used to support health and wellness. This comprehensive guide is suitable for adult learners in further education, sixth form college, or vocational school, and provides a valuable resource for anyone interested in the cutting-edge field of nutritional science.

Pattern(s) of Evolution

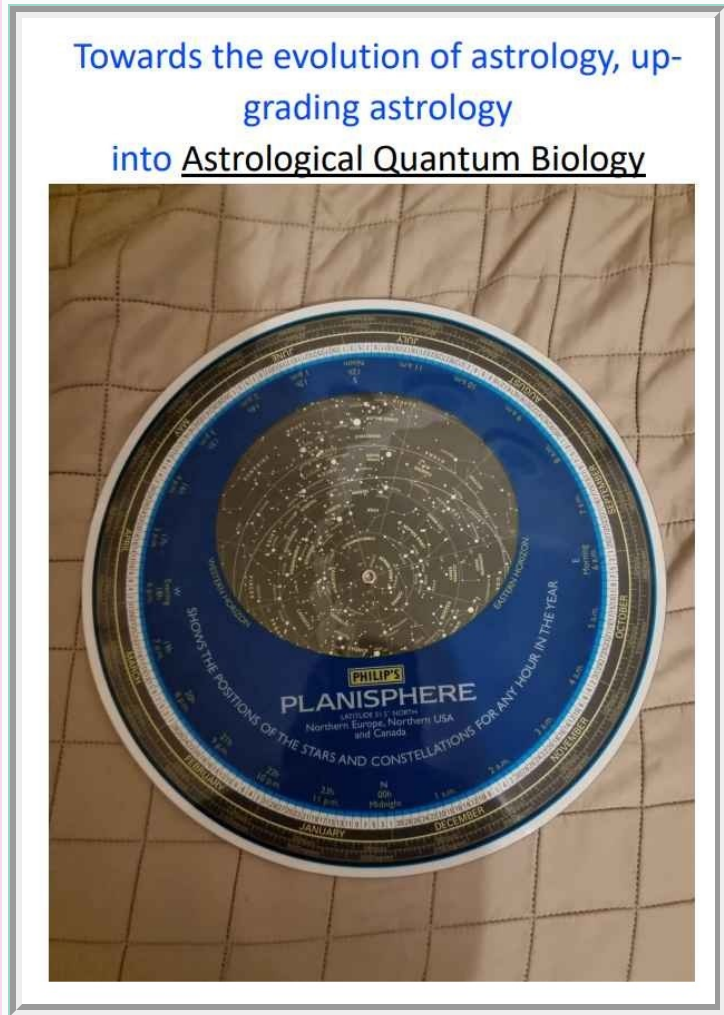

The patten of ecology within a petri dish will show that equilibrium of the bacterial polarities within the bacteria colony of the petri dish will balance to equilibrium; proving equilibrium of the polarities is a patten of the ecology within a petri dish. The pattens of equilibrium are in science evolution and also natural-relationship evolution; the science hypothesis is that evolution is not competitive at quantum or molecular level, even at relationship level as shown with the Taoist symbol (*see TaoEvolution symbol – yin/yang coevolving mutualism*).

‘Equilibrium of yin/yang will diminish the divorce rate via sensitive debative mutualism’ kind regards John Lawrence King

‘Equilibrium of the parties/*polarities* will keep peace towards communal-living’ kind regards John Lawrence King

‘The pattens of science evolution are Equilibrium of the polarities’ kind regards John Lawrence King

Quantum astrological evolution

Romantic suggestions linked with [astrological-quantum-biology](#) would be very compatible and coevolving mutual relationships would be long-lasting as the beneficial information provided via the new astrologers of astrological-quantum-biology would be very precise within a new dating App.

This is a bit of a hypothesis, yet to be proven, both polarities of male and female brain is different, the male (yang) and female (Yin) neurological networks are different in density and structural difference. The difference creates differentiated quantum energy via quantum entanglement (*See bit-coin-encryption-keys - in book*).

A magnet has quantum equilibrium, co-evolution is equilibrium that is an innate none-competitive patten written in science-evolution (*i.e. relationships evolve better with pattens of none-competitiveness, as with molecular and quantum evolution, Whereby two souls grow and stay together via co-evolving mutualism, in accordance to the pattens of science evolution*). Entanglement hypothesis

The science hypothesis: there is pattens and similarities/parallels of up and down quarks within pattens of atmospheric water molecules whereby tunnelling and entanglement and the two up and two down quarks (*perhaps also interactions with leptons/bosons*) of neutron(s) and proton(s) have similarities with atmospheric water molecules and the resultant patten(s) of quantum entanglement, within quantum atmospheric entanglement.

So, we breathe in and out quantum entangled quarks; that suggests that quantum atmospheric entanglement is the vector of quantum entangled thoughts, though the way to prove thought = energy, internal and external to the physiology is via Quantum-enzymology and Quantum-chemistry of which is perhaps necessary together with an new branch of mathematics and laboratory experimentation to prove the resultant hypothesis derived from the question(s).

See question: - Question for the Quantum-Biologists and Enzymologists: - How does a cerebral-fluid enzyme hold audio and visual memory (*i.e., a Chinese character and associated audiometry*); before, during and after transmission of neurotransmitter from one neuron to another neuron.

A laboratory experiment is necessary; whereby simulated cerebral-fluid is within a petri-dish, containing neurotransmitters, neurons and enzymes with a control mechanism transmitting the neurotransmitter along the polarised neuron to the enzyme, and some mechanism to quantify and qualitatively compute how an enzyme holds memory, other than quantum entanglement and tunnelling; there is some other mechanistic unidentified phenomenon not yet known. If you have a reasonable hypothesis as to how, please do not hesitate to contact me at johnlawrenceking@bio-functional-foods.com for dialogue.

The origins of the universe Hypothesis

Hypothesis - big bang and/or inflation was initiated by the first quantum polarity by God (*a laboratory science experiment to prove or disprove if energy is intelligent or not is required, if there is no god, there is nothing but fake monarch gods within the energy around the circumference of planet Earth, though at the origin of the universe the mass of intelligent energy is* **1) Later the initiation of matter and antimatter to initiate the big-bang and evolutionary space-time.**

The hypothesis is that dark energy evolves into dark matter (*via rotating universe/galaxies, the spiraling galaxy quantum-mechanical-system, the input into the system is dark energy and the output is dark matter, towards inflation of space-time*) thereby the resultant inflationary/evolutionary space-time, gravity - space-time are c

The patterns of evolution are shown in evolutionary biology, evolution of parallel learning techniques and also quantum evolution; similarly, the pattens of evolution are within the origins of the universes, there was two quantum polarities (*perhaps even parallel universes*) initially in parallel before merging to create the big bang.

The pattens of the origins of the universe are similar with quantum polarity/affiliate and chemical affiliate for molecular evolution, similarly with species evolution there is polarity between male/female not only with the obvious though with brain structure and density of the neurons are different between male and female neurologically speaking.

Perhaps it is reasonable to hypothesise that the first quantum polarity was initiated via a mass of congealed energy that initiated evolution; the hypothesis is that the patterns of evolution were initiated to create an organic system for evolution; the *rationality and purpose of life is to live, to love and be loved and evolve, preferably via co-evolution or debate.*

The patterns of co-evolution are within the physiology between immunity and pathogens; the same patterns of co-evolution exist between the bacteria and fungi... in the soil that plant-life (*prokaryotes*) are dependent upon - Hypotheses by John Lawrence King.

The soul is the same, male/female the soul is the same, derived from the evolved energy from the origin of the universe is part of the hypothesis.

The *Miller-experiment* proves the first *self-replication-cells* were proteinoid(s), though does not prove the *spark-of-life*; of which, utilises quantum entanglement and tunnelling and some *additional phenomena* to affect the quantum polarity of meiosis and mitoses during cell division within the physiology. Quantum-Field theory (as mentioned Pro.D.Tong on utube) would enhance the Miller experiment if combined so to prove that quantum entanglement and quantum tunnelling are involved with the first proteinoid(s) and the spark of life.

Positive harmless evolution, combined with environmental sustainability will create long term sustainable peace”. Kind regards John Lawrence King

A mile-square-gated-community would be suitable for housing the UK elderly, so that independent living within a communal community would be a safe and happy community to live within UK and perhaps elsewhere; also with self-reliance (financially, and food production via internal roof-greenhouses) and a railway system for communal travel between shops and industries.

Those that need funding for governmental-industrialism would perhaps like to consider floating governmental-domestic and/or industrial-bonds on the stock exchange to restart/save/enhance the economy.

Co-evolving debate and co-evolving mutualism is the solution at all levels though.

'Equilibrium of yin-female/yang-male will diminish the divorce rate via sensitive debative mutualism'
Whereby two souls grow and stay together via co-evolution mutualism.
kind regards John Lawrence King

'Equilibrium of the parties/polarities will keep peace towards communal-living'

'The pattens of science evolution are Equilibrium of the polarities'

PROOF:-

The laboratory experimentation of two laboratories often produces the same results if applied to real science in the absence of agender-based thinking of hierarchical management;

With real science (*not pseudo-science - or management*) the two laboratories are using the same science data, equipment, and methods of which, would evolve the same results if there is no faults in the derived experiment. Thus, proving that the two laboratories would evolve the same results in a non-competitive-way; therefore, non-competitive-equilibrium of the polarities is the pattens of science evolution.

2. stain the different strains and/or species of bacteria as they grow with contrasting coloured stains

DNA profiling and face recognition will keep the criminals out of governments, providing the data bases are not corrupted

“Governmental industrialism is the solution to enhance the GDP, reduce unemployment, reduce the trade-deficit (*if the currency/pound is not too strong*) and eventually pay of the national-debt; Governmental industrialism would be financed via flotation of governmental bonds, this plan is applicable for the UK and other technetronic-plate(governmental) business” John Lawrence King.

The people’s Democratic republic party is a better alternative than Monarchism (*as history has been repetitive*); Idealistically a referendum for no Monarch on the throne would bring peace, as Monarchism will become less important during the Quantum-Science-Renaissance and peace” John Lawrence King

Peace sustainability and environmental sustainability are related and important during the quantum science Renaissance; Monarchism will become less important during the Quantum-Science-Renaissance; *There are many techniques the UK monarch uses for enslavement*, the solution is a international petition for a referendum for no monarch on the UK throne, together with rewriting the bible the outcome would be long-term-sustainable peace. John Lawrence King

In the UK, equilibrium between left and right would perhaps unite the Welsh, Scottish, Irish, and English people in Peace via a voting/Referendum system; this patten of equilibrium sustainability would create/make and keep long-term-sustainable-peace elsewhere, peace could be created if antagonistic-opposites in Christianity Where/are reduced (perhaps via co-evolving mutualism); and as there has been no sustainable peace in the UK for thousands of years a referendum for no monarch on the throne in the UK so to stop the monarch(s) competitive behaviour and bring long term peace with the UK populous.

The 3rd-way is when the monarch puppeteers do not enslave governments (or any others) like puppets; and monarchs allow the real energy from the origin to thrive (see origin of the universe hypotheses).

Those that have been enslaved are vulnerable to blackmail and perhaps should not be in governments.

During peace-times governments become strong providing they're not blackmailed into corruption;

The solution to long-term-global-peace is compatible political philosophies, perhaps The peoples democratic republic parties would make and keep sustainable peace (see structure of the Analytical Pece Keeping System/Model).
